THE CHURCH FOR ALL ...

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why

every person should attend services regularly and support the Church. They are: (1) For his

own sake. (2) For his children's sake. (3) For the

sake of his community and nation. (4) For the

sake of the Church itself, which needs his moral

and material support. Plan to go to church regu-

larly and read your Bible daily.

in mind America's experience in Korea when he declined to be drawn into hasty statements concerning the threat, which was later discounted for the moment, that Communist "volunteer" forces might be introduced into the Middle East conflict.

His reiteration that the United States would oppose such a move was accompanied by the statement that any action we might take would probably be in and through the United Nations. He declared we would certainly back whatever decision the U. N. might take.

Movement of Communist forces into the Middle East, possibly Red Chineese as well as Russian, would present a much more critical problem than did the Red invasion of

The U.N. has a body of precedent to guide it in dealing with a new Korea. So has Mr. Eisenhower. One thing he unquestionably would do before entering upon any counter acting move would be to consult Congress.

Meanwhile, as Mr. Eisenhower reiterates our policy is one of peace through the U. N. That is certainly better than taking off on a

# Average United States Senator Now 58 While That Of Representative Is 54

The newly elected Congress is older, if not necessarily wiser, than the one that closed up shop last July.

Come January, a survey shows, the average senator will be pushing 58. The typical representative never will see 51 again.

Pennsylvanians, on a just straight age basis, well might draw an obvious conclusion on whether the Republican Party or the Democratic Party will be their "party of the future" in the 1958 and 1960 elections, as things stand today.

They defeated a 73-year-old incumbent Republican at the November 6 polls and named his 55-year-old challenger to the Uinted States Senate.

Senator-elect Joseph Clark will be nearly three years under the average age of his Iellow senators when he goes to Washington after the first of the year. His fellow Pennlylvanian, Edward Martin, will be 77 and is said to be planning retirement

Monroe, Northampton and Carbon Counties reelected veteran Congressman Francis E. Walter a week ago Tuesday. He is 72-18 years above the 54-year-old average of the entire House. In the Tenth District, just north of here, the reelected representative, Joseph L. Carrigg, is 55, or one year above

Sad but true, the next congressional elections will be here almost before we know it, and all of us will be two years older.

And so do the rival Republican and Democratic parties in Pennsylvania.

But in which direction?

We'll place our chips on the party which heeds that old dictum, "Youth will be

# Barrett Welfare Drive **Nears Goal**

BARRETT - Barrett Township's United Welfare Fund Drive neared its goal of \$10,000 this week, when contributions reached the \$9,450 mark, according to Harold Kreck, campaign chairman. He reported that response to this year's increased budget had been generous, with residents of the area increasing their gifts to the Chest by about 25 per cent in nearly all cases, to meet the approximate 25 per cent increase in the fund.

While most of the funds for the township and county agrencies remained the same as last year, an additional \$500 for the Barrett Branch of the YMCA was added to the drive's budget, and a new agency, the proposed community swimming pool and recreational center was included, with \$1,500 appropriated for this project.

Announcement At a meeting this week, the committee announced that it felt that the progress made to this point indicated an early "ever the top" victory for the township's second annual United Chest Drive.

Appreciation was expressed to Charles D. THE BURDEN OF PROOF - Howard Menger, High Bridge, N.J. rests the body of his case for "contact" with space ships and their pilots on a series of 16 photographs he says he took with a Polaroid camera. Menger later gave the photos to Clinton, N.J. photographer Earl McClintock Jr., who copied them. McClintock says he cannot vouch for their validity. Here McClintock holds photos for Daily Record city editor Jim Riley and sports editor Bob Clark to study. Riley and Clark remained skeptical; still do. (Staff Photo By Rando

# DEADLINES

Advertising copy deadlines, just as news copy deadlines, are necessary . . . in fact, are imperative to the publication of a

Enforcement of deadlines makes it possible to give readers a better newspaper, delivered on schedule. A better newspaper, promptly delivered to all sections of the trading area, means a better advertising medium.

It follows that adequate time for the proper handling of advertising copy, without interference with the mechanics of news production . . . and without jeopardizing the "on time" delivery of the newspaper . . . permits the better handling of advertising copy to work to the advantage of the advertiser in a better advertising medium.

In the interest of better serving ALL advertisers, all copy for display advertising, including CLASSIFIED DISPLAY, must meet the following deadlines:

Monday Copy...... 5 P.M. Friday Tuesday Copy......12 Noon Saturday Wednesday Copy...... 5 P.M. Monday Thursday Copy...... 5 P.M. Tuesday Friday Copy...... 5 P.M. Wednesday Saturday Copy....... 5 P.M. Thursday (Holiday Intervening-5 P.M. 3 days before publication)
